

Safer independence for youth with I/DD and behavioral health needs

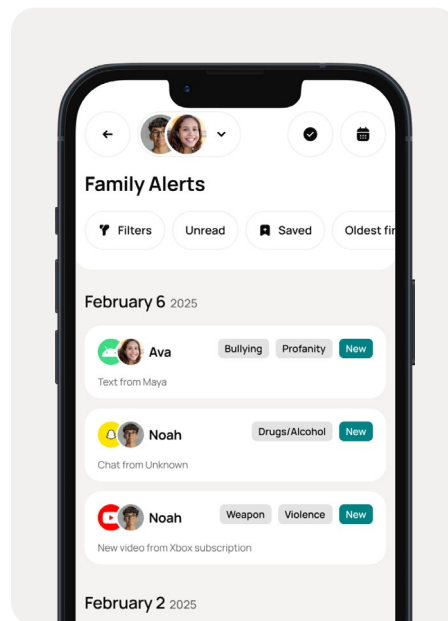

Bark gives parents and caregivers the tools to help their child navigate the digital world safely — while building the independence they deserve.

AREAS OF SUPPORT

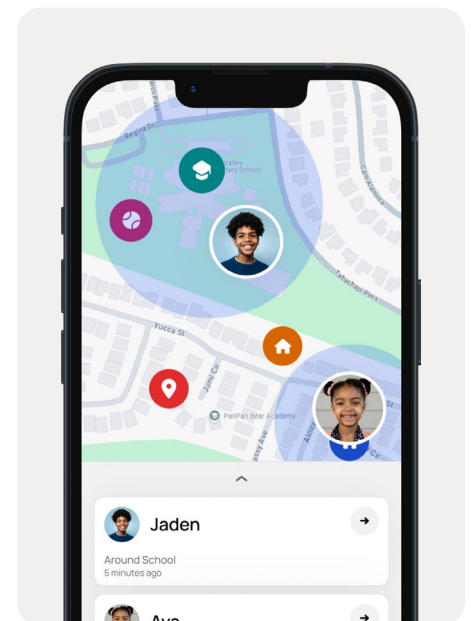

Content & app access

Customizable filters block harmful content, limit apps to what's appropriate for your child's maturity and needs, and create structured **screen time schedules** that support healthy routines.

Digital communication

Approve every contact before they can communicate with your child. Bark **monitors interactions across 30+ alert categories** — including bullying, depression, sexual content, and predatory behavior — so parents can intervene early when it matters most.

Physical safety

Location tracking, virtual boundaries, **emergency SOS**, and reliable **talk and text** help parents stay connected and respond quickly — even in moments of elopement.

OUR PRODUCTS

Bark Phone

A fully customizable smartphone built for safety. Parents control which apps are installed, who can be contacted, and when the phone can be used.

- ✓ Tamper-proof parental controls
- ✓ GPS location tracking
- ✓ AI-powered content monitoring and alerts
- ✓ Approve every contact and app download
- ✓ Customizable screen time schedules

Bark Watch

A safer first device — no social media, games, or browsers. Just connection and safety.

- ✓ Talk, text, and location tracking
- ✓ Emergency SOS feature
- ✓ Monitor texts and photos
- ✓ No apps, internet, or social media
- ✓ Ideal for children earlier in their independence journey

REAL-WORLD IMPACT

91%

of families reported **tangible improvements within 3–6 months** of using Bark

55%

saw **increased independence** and fewer behavioral challenges

45%

reported **improved social connection** with peers

Additional gains reported in digital social cue development, content safety, and caregiver confidence.

WHERE WE WORK

Bark is already supporting families through state I/DD waiver programs in **Wisconsin, Ohio, and North Carolina** — with a growing number of communities coming online.
